SUMMARY

Experienced Game Developer with 4+ years of experience specializing in Unity, Unreal. Proven track record of writing high quality, scalable code, rapid prototyping of MVPs and successful publication of games on different platforms.

TECHNICAL SKILLS

Languages: C++, C#

Core Competencies: OOP, Agile/Scrum, Design Patterns, Gameplay Systems, IK, AI Behaviour, Gameplay Systems.

Development Tools And SDLC: Visual Studio, Blender, Git/SVN, Tortoise Git, Perforce, Jira, Firebase, SDLC, Memory Management.

Engines And Spatial Computing: Unity, Unreal Engine, Photon Engine, Visual Scripting, Unreal Blueprints.

EXPERIENCE

Founder / Lead Developer

August 2024 - Present

Artha Game Studio - Pune, India

- Directed full software lifecycle, establishing technical architecture and production planning as a solo founder.
- Developed gameplay systems using C++ and Blueprints, implementing custom character controllers, AI behaviour, and animation logic including IK/FK and retargeting.
- Concluded independent studio operations, seeking a collaborative team to apply end-to-end development experience.

Game Developer L2

June 2023 - July 2024

Rendered Ideas Pvt. Ltd. - Mumbai, India

- Identified and resolved performance bottlenecks using advanced debugging and profiling tools, writing highly optimized code and refining assets to ensure smooth rendering fidelity for cross-platform gameplay.
- Led end-to-end development for multiple titles, including a published first-person shooter.
- Collaborated with QA, design, and production using Git to stabilize build systems and maintain release schedules.

Game Developer

May 2022 - June 2023

Avataris GMBH - Graz, Austria (Remote)

- Iterated extensively on physics and animation logic, enhancing game responsiveness based on player feedback.
- Developed custom tools to optimize game assets and managed version control workflows using Tortoise Git.
- Designed and implemented multiplayer systems using Photon for network programming to boost user engagement.

Game Developer

July 2021 - April 2022

GoodSleep Games - Barcelona, Spain (Remote)

- Created new VR controller mechanics, supporting procedural 3D world generation and enhancing player engagement.
- Developed scalable rule systems and integrated immersive audio features, delivering a compelling proof of concept for IP.
- Developed a VR title from scratch using Unity and Photon, providing reliable concurrent online gameplay.

EDUCATION

BCA in Software & Game Development

July 2019 - August 2022

Seamedu School of Pro-Expressionism - Pune, India
